Managing, Measuring and Maximising the Intellectual Capital of IOS in Digital Environment

Dr. Tariq Ashraf
University of Delhi South Campus
tariq@south.du.ac.in
AGENDA

• Digital Environment
• Research & Innovation
• Measuring Research
• Intellectual Capital of IOS
a. ICT access by population

Total
global population

~7.4 billion

Within
mobile coverage

7 billion

Mobile phones

5.2 billion

Total
internet users

3.2 billion

High-speed
internet

1.1 billion
b. A typical day in the life of the internet

- 186 million Instagram photos
- 152 million Skype calls
- 36 million Amazon purchases
- 8.8 billion YouTube videos watched
- 2.3 billion GB of web traffic
- 803 million tweets
- 207 billion e-mails sent
- 4.2 billion Google searches

Sources: World Development Indicators (World Bank, various years); WDR 2016 team; http://www.internethlivestats.com/one-second/ (as compiled on April 4, 2015). Data at http://bit.do/WDR2016-FigO_4.

Note: In panel a, for some years data for electricity are interpolated from available data. GB = gigabytes.
Transformational Change in the Information Landscape

- Meteoric rise of Information Alternatives
- Massive Digitisation-MOOCs-WDL-IDL
- E-book Adoption Reaching a Tipping Point
- More sale on Amazon
- Google’s mission is to organize the world’s information and make it universally accessible and useful
The Thousand-Year Plan

Academic Libraries Will Never Beat Google

University of Michigan Estimated time to scan all of their 7 M volumes = 1,000 years
Actual time for Google to scan 7 M volumes = 6 years
Size Doesn’t Matter

Librarians Struggling to Define Appropriate Performance Metrics

Traditional Metrics Measure Inputs and Size

- Libraries can no longer demonstrate their educational and scholarly impact via traditional measures such as the number of volumes and serial titles held, expenditures on monographs and staff,
- Gate count, and reference requests. New measures of success (still under development) will emphasize
- Impact on student learning outcomes, retention and graduation rates, faculty research productivity, and teaching support.

Evolving Metrics Aligned With Value, but Hard to Quantify

- Impact on student enrollment, retention, and graduation rates
- Impact on student learning
- Contribution to faculty research productivity
- Impact on faculty grant proposals and funding
- Support of faculty teaching
With Us or Without Us
Many Predict Libraries Will Be the Next Media Outlet to Be Dis-intermediated

• Local Physical Distribution Models Displaced by Remote and Fully Digital Approaches.
• Convergent Media Services (music, video, books)
Need to embrace a model that ensures access to (from several sources)—not necessarily ownership.

Local Print Collections Are Large, Expensive, and Rarely Used, hence

- Leverage Data on Usage, Electronic Access, and Local Holdings to Prioritize Local Collections;

- Avoid Unnecessary Duplication Through Collaborative Storage and Acquisition Plans
New Library Services

- **Onsite Services**
- Teaching and Learning
- Collaborative Study
- 24/7 Access
- Tutoring/ Use of Social Media
- Café
- **Instructional Support**
  - Multimedia Production Support
  - Instructional Design
  - Information Literacy
- **Web Services**
- Databases Search
- Chat Reference
- Mobile Access
- **Research Support**
- Copyright Advising
- Publication Support
- Data Curation

Research: Beyond Contributions to Academia

• Not meant for shelving alone
• Research impact is the demonstrable contribution that it makes to the economy, society, culture, national security, public policy or services, health, the environment, or quality of life, beyond contributions to academia
Publishing research and generating research impact secures funding for the growth of the university and future research initiatives.
Measuring Research
Emerging Research Narrative

- Peer review
- Citation analysis and metrics
- Esteem, influence, awards, prestige, broadcast media attention.
- Research income
- Public policy, commercial applications

A combination of indicators may be used to create a narrative impact statement.
Major Metrics: Research Impact

• Publication count
  – Number of publications produced by individual, school or university

• Citation count
  – Number of times publication is cited by other publications
Citation analysis is the examination of the frequency, patterns, and graphs of citations in articles and books. It uses citations in scholarly works to establish links to other works or other researchers.

Citation analysis is one of the most widely used methods of bibliometrics.
Citation Analysis: Applications

These have various applications,

- The identification of expert referees to review papers
- Grant proposals,
- Providing transparent data in support of academic merit review,
- Selection, Tenure, and promotion decisions.
Journal Ranking

– What is measured?
– “Quality” or “Importance” of journal relative to other journals
  • Usually within a given field of study

• There are many ways to measure “quality,” “importance”
“Impact Factor”

• Journal Impact Factor (JIF)
• Basically “how fast are ideas spreading from this journal to other publications?”
• Formula is a ratio:

Number of citations to a journal in a given year from articles occurring in the past 2 years, divided by the number of scholarly articles published in the journal in the past 2 years
Journal Impact Factor (JIF)

– Average number of times articles published in journal in past 2 years have been cited in current year

– Eg title with JIF of 1 in 2010 means that articles published in 2008 or 2009 have been cited on average once in 2010
Journal Impact Factor

- Journal of Hypothetical Examples

<table>
<thead>
<tr>
<th>100</th>
<th>Citing references appearing in 2010, to articles published in Journal in 2009 and 2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>200</td>
<td>Total number of articles in Journal published in 2009 and 2008</td>
</tr>
<tr>
<td>0.50</td>
<td>JIF</td>
</tr>
</tbody>
</table>
Key Tools: Journal Quality

- Journal Citation Reports
  - Produced using data from Science Citation Index and Social Sciences Citation Index
  - Covers over 10,500 journals
  - Reports from 2000 to 2010 are available
Individual & Institutional Ranking

Major Metrics:

• h-index

  – Increasingly applied to Individual Scholars/ institutions

  – Largest number $h$, where a scholar has at least $h$ of its articles cited at least $h$ times

  – Eg scholar has an h-index of 10 if 10 of its papers have each been cited at least 10 times
What is the $h$-Index?

- Performance measurement tool for scientific authors (similar idea to journal impact factors but for individuals)

Established by Jorge Hirsch at UC San Diego

“A scientist has index $h$ if $h$ of his/her $N_p$ papers have at least $h$ citations each, and the other ($N_p - h$) papers have no more than $h$ citations each.”

### H-index example

**Author A**

<table>
<thead>
<tr>
<th>Doc</th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
<th>5</th>
<th>6</th>
<th>7</th>
<th>8</th>
<th>9</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cit</td>
<td>55</td>
<td>45</td>
<td>20</td>
<td>10</td>
<td>5</td>
<td>4</td>
<td>3</td>
<td>2</td>
<td>1</td>
</tr>
</tbody>
</table>

**Author B**

<table>
<thead>
<tr>
<th>Doc</th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cit</td>
<td>25</td>
<td>20</td>
<td>9</td>
<td>6</td>
</tr>
</tbody>
</table>
The $h$-index

- It could be used for an specific Author:
  - Evaluate the Research Performance of Author
- Or could be used for a group of Papers of an institution, department or journal which
  - Evaluate the Impact of the group of special papers

RESEARCH PROGRAMMES

Introduction

The Institute of Objective studies presents a compendium of research themes pertaining to some specific areas in social sciences and humanities. A compendium of this nature is a major tool to conduct research on various themes. As a follow-up action strategy, the scheme is taken up at two levels: (a) providing focus and perspective through identification of research themes and (b) evolving an appropriate methodology of research with an Islamic perspective. The Institute of objective studies is at the advanced stage in formulation of a concrete plan of action at operational level in both of these areas. The said compendium reflects endeavor to achieve primarily the first objective. The implementation of methodology is also in an advanced stage. It is being handled separately. These efforts will provide practical guide lines to mitigate a long standing crisis in thought and methodology in particular.

The preparation of compendium may be viewed in the context of providing a clear perspective and focus to conduct research to attract researchers to attract research in the field of Social research. The select themes may be arranged according to discipline and each discipline contains broadly four categories depicting themes concerning Islamic, Ummah, national issues and finally other problems relating to humanity as a whole. These are at present, adjusted according to requirements of the discipline. Generally themes are so that the scholars may grasp the focus and meaning of the theme. The success of this effort requires wide circulation of the compendium. The IOS is pursuing the theme concerning human, national and Ummah problems and is invited to provide helping hand for wide circulation of the compendium. These themes are set in a way that setting the priority levels. The IOS linked the scheme of award of scholarships for Ph.D. and M.Phil scholars of different universities in India with the themes, spelt out in the compendium. The themes are considered for the award of scholarships. Senior academics in various disciplines may also be invited to work on specific themes as sponsored research projects duly approved. Projects may be invited from all categories of researchers for providing financial assistance to work on these themes. Ad-hoc and partial grants may be given to publishing works. Finally, the IOS would evaluate and monitor progress in these areas periodically. And, consequently the compendium would be revised accordingly from time to time to exercise alone.

It would be not out of place here to mention that the Governing Council of the Institute of Objective Studies resolved to take up the project of preparation of the compendium in final form was approved by the Council on July 30, 1994. During the period of almost one year, a number of meetings of the Conveners of subject committees, listing the conduct of two day workshop on the proposed themes and the format reflect the Quantum of effort in preparation of compendium.

- Project on Islamic Banking, Finance and Economics
- Letter to the Editor Financial Express
- Islamic Banking in India
- Islamic Finance in India
- Compendium of Research Themes

The following important projects are at various stages of completion and publication:
- Kalimatullahi Hu ya Ar-ru’la (Allah ka Kalam hi Buland Hai)
- Empowerment of Muslims in India
- Encyclopaedic Compendium of Muslim Communities in the World
- Role of Muslims in India’s Freedom Struggle Movement (1857-1947)
The Institute has brought out around 350 publications. Some important publications are as follows:

- Media in our Globalising World.
- Waqf Laws and Management.
- Access to Urban Basic Services in the Muslim Localities of Delhi.
- Kaarghae Hayat mein Khwateen ki Shirkat.
- Insurance – Ek Sharare Mutaaleya.
- Sarbulandi ka Daawati Dastoor.
- Tadabbur Quran ke Usool wa Masaael.
- Deeni Taleem – Islaah wa Janaad ki Kashmakash.
- Qalami Khakey.
- Fiqh Al-Aqalliyaat.
- Islami Tehzeeb ke Abaad.
- Maulana Abul Kalam Azad aur Murtaalaye Mazaahib.
- Aahe Nabwi mein Ikhtelaaf, Jehaat aur Nawaceain.
- Tabsarey aur Tanqeedeain.
- Vistas of Illumination (Selected articles from the IOS Minaret).
- Muslim Women and Global Challenges.
- Theories of Hiphoticity and Psychophotic.
- Black America: The Islamic Experience.
- Development and Islam: Islamic Perspectives on Economic Development.
JOURNALS

As part of its publication programme, the Institute publishes Journals "Journal of Objective Studies" "Religion and Law Review" and an IOS Bulletin Human Rights Today.

The Journal of Objective Studies which is being published regularly since July 1989 encourages contributions from all scholars and students of Social Science and Humanities orientation. It promotes free discussion and dialogue that is constructive in intent and conducive to rectification of our mistakes and redressers of our problems.

The Journal has carved out a place for itself amongst the Research Journals reputed for their objective analysis of various aspects of social concern.

Journal Of Objective Studies

The Journal - Religion and Law Review which was started in 1992 specializes in the study of changing problems of the relationship between Religion and Law. It covers inter alia:

Legal aspects of religion
Place of religion in legal system

The Journal is gaining popularity amongst academicians, social scientists and other intellectuals. Its last special issue on "Hindutva" was particularly welcomed by all t India. The Journal is edited by Professor Tahir Mahmood.

Religion Law Review

IOS Bulletin Human Rights Today is devoted to Human rights and Human Rights Education. Noted human rights activist and scholar Prof. Iqbal A. Ansari edits the Journal. For

Human Rights Today
Major Achievements

1. Marked credibility in few select areas namely achieving steady progress in bringing together a galaxy of social scientists, policy planners and social workers. It has tried to foster healthy inter-community linkages among various sections of society.

2. Studies in areas of Dalits, OBCs etc. are conducted even through collaboration with other NGOs working in concerned areas. Thirdly, it has struggled hard to save and augment secular, democratic and constitutional values of Indian legal, civilisational and cultural base line. It has tirelessly worked in all odds at all levels in past years.

3. The achievements, programmes and performance have caused a substantial rise in expectancy level of all concerned. It enjoys legal status and permission to conduct its affairs in terms of exemption in income tax to donors, permission under FCRA (Foreign Contribution (Regulation) Act) etc.
It also enjoys recognition from the Economic and Social Council (ECOSOC) of the UN.

The Institute has its headquarter in New Delhi along with its five chapters at Aligarh, Chennai, Calicut, Kolkata and Patna.

Around 370 projects, reports and translations of important books have been published and approximately 23 others are due for completion shortly.

The Institute has become a trendsetter in the fields of conceptual and investigative research on the Quranic approach to human problems and the problems of Muslims in India.

Various survey projects focused on the problems of Muslims are fulfilling a long felt need for statistical information and analysis in different areas. Publications Programme
Digital Institutional Repository

Though all the publications of IOS are available in its well-stocked library in physical format, yet it would be desirable to increase the reach and impact of these high value research publications by making them accessible online globally.

An Institutional Repository is an online locus for collecting, preserving, and disseminating — in digital form — the intellectual output of an institution, particularly a research institution.
1. Provide a **single point of access** to over **350 digital publications**, from the first publication in 1984 to the most recent in a 24x7 environment.

2. To provide access to the geographically dispersed chapters of IOS and fulfill their information requirements remotely.

3. Increase the **visibility and impact** in a consistent manner, of all the work produced.
1. Ensure continuous and safe preservation of IOS’s intellectual property in a long term and in digital format.

2. To collect content in a single location;

3. To provide open access to institutional research output to the partnering and collaborating bodies/institutions/Universities globally.
Scope of IOS’s Digital Repository

- Books
- Journals
- Reports
- Research Publications
- Lectures
- Conference / Seminar Proceedings
Methodology:
The following methodology is proposed to be followed in the process of building Digital Repository of IOS.

1. To convert all print publications into Digital forms through high resolution scanners.
2. To classify these publications subject-wise and assign meta-data for the ease of search and browsing.
3. To host these publications into DSpace, a digital library software and make it accessible publicly through IOS server.

Al-Sunnah Al-Nabawiyyah Wa-Dauruha Al-Ikhamiyyah fi istinbat Al-Ahkam Al-Shar'IYYAH

This research is entitled Sunnah and its role in devising the legal provisions. The significance of this research is that there is not much difference between the methodology Quran and Sunnah in terms of inference with them. Retriving from Quran alone is not enough; hence it can be complemented with Sunnah as the prophetic verses are originally from the assets of Islamic law and cannot be dispensed with in any way. The aim of the research is to identify the Sunnah of the Prophet Muhammad, the types and importance. This is to rebut claims that the Quran is enough and there is no need for the Sunnah. This research aims to provide concrete facts and studies on God, divinity and oneness and its provisions recognizing and obedience, and attempt producing the best way to educate the Sunnah of the Islamic nation. The research consists of an introduction and three chapters. The objectives and past studies are also included. The research methodology adopted in this research is an analytical inductive approach for what has been mentioned on this subject in the literature of jurisprudence book that relies on relevant religious texts and discuss their implications. The researcher has pointed out that Muslims and their scholars are unanimously from the first generation up to the present day on the necessity of Sunnah. And they continued using it as evidence without any doubt, Sunnah is one of the obligatory evidence in shariah that must be practiced if it’s true, as well as the Quran.

Divisions: Islamic Civilization
المقدمة

إن الحمد لله تعالى وdaqعه، وإنا أسلمة على الله عز وجل ورسوله ﷺ وعليه السلام ومن أعده أهل الحق، ورسول الله ﷺ، وعائده لاجتماع المسلمين.

أما بعد فإن السياق من الجانبين من المبتدأ بالضرورة أن الله عز وجل وعد عباده المؤمنين بالنصر والتمكين إنهم Ça بشرعون ونصروا ديرته قل تعالا: ((إن نصهرتوا الله يزدك وتخيف أقدامك)). وإن القيام يشرع الله لمعظم أمره ويلم فضلته في أوقات غريبة من أوقات غريبة من الجامعة ويشتهر على أحد ما يتعرض له دينه تعالى في هذه السنوات الأخيرة من هجرة دوارة من أطراف متعددة داخلية خارجب، الأمر الذي يستوجب من حملة المنهج الحق للمبادرة الجادة، والعمل الدؤوب لصد هذه الهجمة على أعقابها إعلاء لكلمة الله واقتداء بحدى المرسلين وارعا للجدة. فقد يقال إنه من فضول القول أن يبحث اليوم في السنة النبوية وقد مضى على البحث فيها من عامة المسلمين أربعة عشر قرناً، فما فائدة هذا البحث؟ وهل يوجد في الدنيا مسلم واحد يتابع في السنة من حيث حجيهم ودورها في استنباط الأحكام الشرعية فيها. (إن السنة ليست حجة)؟ أو تعيي واضح، هل يوجد من يقول: (إن أحاديث الرسول ﷺ لا يلزمها العبادة إذا، وإنما يلزمها العمل بالقرآن فقط)؟

الحقيقة أن جماهير المسلمين وعلمائهم أجمعوا من الصدر الأول إلى بعثه هذا على وجوه
